When I finally got to the point I was too tired to work, I was too tired to play.

But Russ saved a lot of lives, relieved a lot of pain and comforted a lot of people.

And the people of Blue Earth aren't likely to forget that.

For a man who doesn't particularly care about recognition, Russ seems to have gotten plenty — for the right reasons.

In the words of Tuttle, "Doc is the last of an old school that we are very sad will not be replaced. That type of person — someone who spent a whole lifetime doing nothing but good for other people and accommodating without expecting to get your last dollar — is a lost breed now."

As DeLeon put it, for the last 50 years "when you said, doc, Russ was the word."

**Woman's body to be buried**

Faribault County will bury the body of an unidentified woman found in a drainage ditch near Blue Earth last month by the county commissioners decided Monday.

The commissioner authorized up to $1,500 to cover the cost of casket, services, opening of the grave, a vault, transportation of the body to St. Paul and back, and preparation of the grave site.

Efforts to establish the identity of the woman will continue, however, using finger prints and dental records. Law enforcement officials continue to go through numerous missing persons reports in hopes of finding out who the woman was and, eventually, who killed her.

The unclothed body was found with a thin rope around its neck.

**Insurance warning**

The Blue Earth Chamber of Commerce office was informed by a local insurance agency this week of an insurance representative from La Crosse, WI, who is using deceptive tactics in soliciting insurance, particularly to elderly citizens in the area.

The representative first contacts people by phone, informing them that their present coverage is not adequate or is soon to expire and for their protection, they should set up an appointment immediately to review their existing protection.

The Chamber strongly urges all people contacted by phone by an unfamiliar representative from La Crosse, WI, to be influenced by their calls, according to the insurance agency.

The insurance agency represents the Chamber as operating at 60 to 70 per cent on a nationwide basis.

**Govern Reunion**

About 50 persons attended the annual Governor's Reunion on July 13 at the K.C. Hall in Blue Earth. It was a cooperative dinner at noon and visiting with relatives last until late afternoon. Mrs. Kathryn Marlow and her family were this year's hosts and hostesses. Mr. Marlow's son and family, Mr. and Mrs. Craig Marlow, Scott, Melissa, and Sandy of Anoka, MN, and his daughter and family, Mr. and Mrs. Lester Parson, Michael and Michelle of Minnelona, MN helped to organize the event. The Jim Governor's Blue Earth attended as well as relatives from Fairmont, East Chain, Detroit Lakes, Litchfield, Perham, and the following Iowa towns: Bancroft, Ledyard, Mason City, and Fort Dodge.
